

Hope Alive

Was developed specifically

for people who have been dehumanized by the devastating trauma of childhood abuse and neglect to which is later added pregnancy losses. Our text DEEPLY DAMAGED outlines the “Psychology of Created Humanity” which provides the data and the foundation concepts. God created humans with a wonderful blueprint to become His wonderful, bright, curious, adventurous human friends. Abuse and abortion almost destroys the humanity that God holds so dear. The damage is deeper than any other traumatic assault. Thus it requires intensive, expert counseling.

Level I Group Counseling Training

For counsellors of Men and Women deeply damaged by child abuse, neglect, and pregnancy losses, especially abortion
